Environment:

OS Support:

• Windows 10

IDE:

- PyCharm 64-Bit
 - Can be found at: https://www.jetbrains.com/pycharm/download/#section=w indows

Python Version:

- Python 3.8.4
 - Can be found at: https://www.python.org/downloads/

Newer versions of Python may work but downgrade if any errors are encountered.

Modules Needed:

- BeautifulSoup
- Requests
- Lxml

Simply use pip-install if you do not have these modules

Image	Explanation
Enter Number of Pages to Crawl: 5	Asks for the number of
	pages that need to be
	crawled.
Enter Number of Pages to Crawl: 5	Asks for the initial book
Enter Starting Book ID: 3735293	to be crawled.
Pages Crawled:1	Displays number of pages
Could Not Scrape Page	that were crawled as well
	as if the page could not
	be scraped.
